Environmental Policy

Instrument Transformers Limited is committed to maintaining and continually improving the effectiveness of the BS EN ISO 14001 Environmental Management System. By understanding and communicating this policy as well as establishing and reviewing environmental objectives, risk and opportunities will continually drive improvements in performance and minimising any adverse effects on the environment, which may result from its activities, processes or products.

The Company is committed to:

- Preventing pollution and protecting the environment
- Considering the environmental impact on materials used in the supply, manufacture, distribution, installation and end-of-life of our products.
- Recycle, re-use and recover packaging and other materials.
- Minimising internal waste and the control of all external waste in line with applicable statutory, legal or other compliance obligations
- Foster co-operation regarding environmental issues with our employees, suppliers, customers and other interested parties.

All ITL personnel are required to assist with the successful implementation of this Environmental Policy.

R. Porrelli
