

INSTRUMENT
TRANSFORMERS^{Ltd.}

Quality Policy

Instrument Transformers Limited's Management Team, are committed to the continued improvement and effectiveness of our BS EN ISO 9001 Quality Management System. It is the Policy of the Company to control the design, procurement, process control and inspection of all its products, which are covered by its scope of registration.

Comply with the customers' needs & expectations, written specifications and/or National or other International Standards (where applicable), to ensure that products continue to be fit for their intended use.

By the establishment of regular reviews of Specific Measurable Agreed Reachable Time-bound, business risks & opportunities including quality measures, that underpin our top-level objectives of conducting business in an ethical, safe manner with environmental considerations whilst providing quality products within agreed timescales and maintaining acceptable levels of revenue.

These opportunities in part will be accomplished by ensuring the clear communication and understanding of this policy by the Management Team to the organisation, combined with making all personnel aware of the relevance, valued contribution and importance of their activities in meeting our continued business-wide objectives.

R. Porrelli
